Instructions

Holding :

- Hold for hot service at an internal temperature of 135 F or higher.

Cooking :

- Cook to an internal temperature of 165 F for 15 seconds.

Food Handling :

- Single gloves should be used for only one task and then discarded.
- Wash hands immediately before engaging in food preparation and again after engaging in any activities that contaminate the hands.

Melt margarine and stir in onion powder and flour. Cook, stirring occasionally, until mixture is lightly browned. Gradually stir in broth. Cook stirring constantly until thickened.

Chop turkey into bite sized pieces. Combine with gravy and portion into serving pans. Heat through until temperature of 165 degrees F is reached.

For service, place one slice of bread on serving plate; top with a #8 scoop of turkey/gravy mix.

1 serving = #8 scoop = 1 CS

If unseasoned turkey is used/can be purchased, sodium level will be much less. Made with seasoned roast the #8 scoop is quite high in sodium.
